Gentlemen:

Supplement Permit is hereby granted to the above designated permittee to correct the maximum injection rate of the Operation Permit #1977-UIC-5-OP which was granted to the permittee to operate existing water pollution control facilities which consist of two waste injection wells and related appurtenances.

Maximum injection rate of the referenced Operation Permit shall be 400 gpm, instead of 300 gpm as indicated in the Operation Permit #1977-UIC-5-OP, dated October 11, 1977.

All Special Conditions and Standard Conditions on the original Operation Permit issued are also applicable to this Supplemental Permit unless specifically deleted or revised in this permit.

Very truly yours,

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
